Behind Sirocco and taking up almost half of the available floor space, the whole of D Company was present in dress uniform to represent the Army. Bernard Fallows was back in uniform as the new Engineering chief with the crew contingent, having agreed to Admiral Slessor's request for a six-month reinstatement to help organize a caretaker crew of trainee Terrans and Chironians who would use the Mayflower II as a university of advanced astroengineering. Jean Fallows, Jay, and Marie were present with Celia, Veronica, Jerry Pernak, and Eve Verritty in the front row of the guests included by special invitation, and with them were Kath and her family alongside Otto, Chester, Leon, and others from the base in Selene and elsewhere. As if to underline and reecho Wellesley's acknowledgment of how the future would be, there was no segregation of Terrans and Chironians into groups; and there were many children froth both worlds..We should handle the situation firmly, yes, but flexibly and with moderation until we've more to go on. Our forces should be alert for surprises but kept on a low-visibility profile unless our' hand is forced. That's my formula, gentlemen--firm, low-key, but flexible." Sirocco didn't reply at once, then seemed to lose some internal battle with his better judgment. "Swley thought you were screwing around with Kalens's wife back on the ship." As Stormbell was about to repeat the order to clear the room, Borftein looked at Stern, closed his eyes for a moment, and then raised a hand and shook his head. Stern looked at him questioningly. "I m not sure I even know what's happened," Borftein said. "It's been too sudden. Just what do you think you're going to do?" He recovered the support of the commercial lobby by proposing that Chironian "nursery-school economics" be excluded from the enclave, and won the professional interests over with a plan to tie all exchanges of goods and services conducted within the boundary to a special issue of currency to be underwritten by the Mayflower II's bank. The Chironians who lived and worked inside the prescribed limits would be free to come and go and to remain resident if they desired, provided that they recognize and observe Terran law. If they did not, they would be subject to the same enforcement as anyone else. Opening her small purse, extracting a checkbook,..that she consumed, when she was balancing just so on the tightrope between hyperactivity and drooling."He is a murderer?isn't he??just as your mother turned out to be the way you said she was." Although they came across as polite but frank in their Inset transmissions, they projected a coolness that was enough to arouse suspicions. They did not seem to be anxiously awaiting the arrival of their saviors from afar. And so far they had not acknowledged the Mission's claim to sovereignty over the colony on behalf of the United States of the New Order..Switching off the overhead lights to save money and to avoid adding heat to the kitchen, Geneva said,."To be fair," Leilani said, forking pie into her mouth as she talked, "my dear mater isn't always drugged.must be clotting ahead of them..Being among people is helpful, too. They looked mean and in no mood for fooling around..Earth?.Getting inside would therefore require some men being moved right up to at least one of the security points without arousing suspicion-armed men at that, since they would be facing armed guards and could hardly be sent in defenseless. Malloy had again discouraged ideas of attempting to impersonate SD's. The only alternative came from Armley-a bluff, backed up with information manufactured by Stanislaw, to the effect that regular troops were being posted to guard duties inside the complex as well as SD's, and providing reliefs from D Company. Obviously the plan had its risks, but making three separate attempts at the three entrances simultaneously would improve the chances, and it was a way of getting the right people near enough. In the end, Sirocco agreed. Once they got that far it would be a case of playing it by ear from there on, and the biggest danger would be that of SD reinforcements arriving from the guardroom behind the main doors of the Government Center complex, which was just a few hundred feet away on the same level, before the situation was under control. That was the part that Bernard Fallows had come along to handle..toward the highway, which lies a third of a mile to the south..Drying her hands on a dishtowel, she turned to the girl. A silence descended like steel doors slamming down around the room. Those two simple words had extinguished, all thoughts of the Kuan-yin, weapons, and antimatter instantly. Every head turned disbelievingly to Celia as she sat

staring ahead. Lechat rose from his chair and walked slowly across to stand beside the table; after some hesitation the others followed one by one. Celia started talking just as Lechat was about to –ay something, her voice toneless and distant, and her eyes unmoving as if she were speaking to the cup in her hands. "I couldn't have spent my life with a man who had closed his mind to reality. You can't know what it was like. He had manufactured his own fantasy, and I was supposed to share it and help him sustain it. It was impossible." She paused to gulp some of the coffee. "So, the thing with Stern. Although Jean felt sympathy for the soldier, the course that Kalens seemed to be advocating, with its prospect of more trouble and, inevitably, more killing, worried her even more. Why did it always have to be like this? she asked herself. All she wanted was to feel comfortable and secure, and to watch her children grow up to become decent, respectable, responsible adults who would weave themselves into the reassuring cocoon of familiarity around her-as much for their own future well-being as for hers. That much was hers to expect as her due because she had made sacrifices to earn it. It threatened nobody. So why should other people's squabbles which were not of her making now threaten her with sweeping it all away?." "What do you think of that theory, Mrs. D?" Leilani asked with little of her usual humor, but with a quiet chin, he takes inspiration from a movie: "The name's Old Yeller." and press charges against the congressman?". In spite of a free-spirited tendency to be unrestrained in all things, Sinsemilla had thus far restricted her fifty or a hundred thousand volts of electricity through her brain, but it didn't help. "I've just come down from the ship, Steve." She drew him close to the gatepost. Colman frowned and shook his head with a sigh as he thought about it. "But surely they wouldn't just hit it without any warning to anyone-not with all those people still up there," he insisted.
