guide as among the compromises has been ready. "Your father denies the rape ever occurred, apparently out of what I'd call a misguided willingness to trust in divine justice." In a pew in Old St. Mary's Church, in Chinatown, Junior took delivery of the lock-release gun and the untraceable 9-mm pistol with the custom-machined silencer, as previously arranged. The church was deserted at ten o'clock in the morning. The shadowy interior and the menacing religious figures gave him the creeps. Agnes remained mystified by this talk, but a week before, in the rain-swept cemetery, she had learned there was substance to it. Junior was stunned that the bitch had come back into his life, to ruin him, almost two years later. Zedd teaches that the present is just an instant between past and future, which really leaves us with only two choices—to live either in the past or the future; the past, being over and done with, has no consequences unless we insist on empowering it by not living entirely in the future. Junior strove always to live in the future, and he believed that he was successful in this striving, but obviously he hadn't yet learned to apply Zedd's wisdom to fullest effect, because the past kept getting at him. He fervently wished he hadn't simply broken up with Tammy Bean, but that he had strangled her instead, that he had strangled her and driven her corpse to Oregon and pushed her off a fire tower and bashed her with a pewter candlestick and sent her to the bottom of Quarry Lake with the gold Rolex stuffed in her mouth. "Yes. More about that later, just let me make it clear that an interest in physics doesn't make me a physicist. Even if I were, I couldn't explain quantum mechanics in an hour or a year. Some say quantum theory is so weird that no one can fully understand all its implications. Some things proven in quantum experiments seem to defy common sense, and I'll lay out a few for you, just to give you the flavor. First, on the subatomic level, effect sometimes comes before cause. In other words, an event can happen before the reason for it ever occurs. Equally odd ... in an experiment with a human observer, subatomic particles behave differently from the way they behave when the experiment is unobserved while in progress and the results are examined only after the fact—which might suggest that human will, even subconsciously expressed, shapes reality." NOLLY SAT BEHIND his desk, suit jacket draped over the back of the chair, porkpie hat still squarely on his head, where it remained at virtually all times except when he was sleeping, showering, dining in a restaurant, or making love. Anyway, if Seraphim were still alive, she would be only nineteen now, too young to have graduated from Academy of Art College. The Finder. Phimie's speech had been slurred later, as well, immediately following the birth of the baby, when she had struggled to convey her desire to name her daughter Angel. being careful to place the point of impact precisely where the bottle had struck her. In his mind's eye, he saw the answering machine with uncanny clarity. That curious gadget. Sitting atop the scarred pine desk. A shock-haired, bright-eyed woman with a candle bound to her forehead set down her pick to show Otter a little cinnabar in a bucket, brownish red clots and crumbs. Shadows leapt across the earth face at which the miners worked. Old timbers creaked, dirt sifted down. Though the air ran cool through the darkness, the drifts and levels were so low and narrow the miners had to stoop and squeeze their way. In places the ceilings had collapsed. Ladders were shaky. The mine was a terrifying place; yet Otter felt a sense of shelter in it. He was half sorry to go back up into the burning day. Head lowered, as if his visit to Jacob were a weight that bowed him, his attention was on the ground. Otherwise, he might not have noticed, might not have been halted by, the intricate and beautiful pattern of sunlight and shadow over which he walked. Again he fired into the lock, squeezed the trigger a second time, and discovered that no rounds remained in the magazine. Extra cartridges were distributed in his pockets. In addition to mulling over strategy, Tom had spent a lot of time lately brooding about culpability: his own, not Cain's. By seizing on the name that he heard Cain speak in a dream, by making use of it in this psychological warfare, had he been the architect of the killer's Bartholomew obsession, or if not the architect, then at least an assisting. THE MORNING THAT it happened was bright and blue in March, two months after Barty took Angel for a dry walk in wet weather, seven weeks after Celestina married Wally, and five weeks after the happy newlyweds completed their purchase of the Galloway house next door to the Lampion place. Selma Galloway, retired from a professorship years earlier, had subsequently retired further, taking advantage of the equity in her long-owned home to buy a little condo on the beach in nearby Carlsbad. Behind his masking hands, the physician let out a thin sound, as though he were trying to pull from his heart an anguish that was embedded like a bur with countless sharp, hooked thorns. Incredibly, the thief left behind the most valuable items: the collection of hardcover first editions of Caesar Zedd's complete body of work. The box stood open, its contents having been explored in haste, but not a single volume was missing. the sentences. The substance of what she said and the tone in which she said it were so perfect that it almost seemed as though an angel had relieved her of this burden by possessing her long enough to help her son understand what must happen and why. The sudden change of subject, from the airliner crash to Phimie, confused Celestina. Junior couldn't imagine why some Negro stranger would want to intrude. He hoped there wouldn't be trouble. Up flew his hands, as white as doves, flapping as though trying to escape from the sleeves of his raincoat, as if he were a magician rather than a musician. AFTER SPENDING Wednesday as a tourist, Junior began to look for a suitable apartment on Thursday. In spite of his new wealth, he did not intend to pay hotel-room rates for an extended period. Instead, he sat in the breakfast nook with his phone books and resumed the grueling search for Bartholomew. But on March 23, 1966, after a bad date with Frieda Bliss, who collected paintings by Jack Lientery, an important new artist, Junior had an experience that rocked him, added significance to the episode in the diner, and made him wish he hadn't donated his pistol to the police project that melted guns into switchblades. Fed up with them and with this exhibition, Junior half wished that he would again be stricken by violent nervous emesis. Even in his suffering, he would enjoy spraying these insistently appealing canvases with the reeking ejecta of his gut: criticism of the most pungent nature. Years earlier, a stream had been diverted to fill the vast excavation. Stock fish were added, mostly trout and bass. Though she worried that reading would strain his eyes, worsening his condition, she recognized the irrationality of her fear. Muscles don't atrophy from use, nor eyes wear out from too much seeing. Eventually, of course, dear Edom held forth about tornadoes—in particular the infamous Tri-State Tornado of 1925, which ravaged portions of Missouri, Illinois, and Indiana. No mystery here. No reason to leap to the ceiling and cling upside down like a frightened cartoon cat. Frequently, people told Agnes that she should find an agent for Barty, as he was wonderfully photogenic; modeling and acting careers, they assured her, were his for the asking. Though her son was indeed a fine-looking lad, Agnes knew he wasn't as exceptionally handsome as many perceived him to be. Rather than his looks, what made Barty so appealing, what made him seem extraordinarily good-looking, were other qualities: an unusual gracefulness for a child, such a physical easiness in every movement and posture that it seemed as though some curious personal relationship with time had allowed him twenty years to become a three-year-old; an unfailingly affable temperament and quick smile that possessed his entire face, including his mesmerizing green blue eyes. Perhaps most affecting of all, his remarkable good health was expressed in the lustrous sheen of his thick hair, in the golden-pink glow of his summer-touched skin, in every physical

aspect of him, until there were times when he seemed radiant..I'm not the first to observe that much of what quantum mechanics reveals about the nature of reality is uncannily compatible with faith, specifically with the concept of a created universe. Several fine physicists have written about this before me. As far as I am aware, however, the notion that human relationships reflect quantum mechanics is fresh with this book: Every human life is intricately connected to every other on a level as profound as the subatomic level in the physical world; underlying every apparent chaos is strange order; and "spooky effects at a distance," as the quantum-savvy put it, are as easily observed in human society as in atomic, molecular, and other physical systems. In this story, Tom Vanadium must simplify and condense complex aspects of quantum mechanics into a few sentences in a single chapter, because although he isn't aware that he's a fictional character, he is obliged to be entertaining. I hope that any physicists reading this will have mercy on him..Under other circumstances, Agnes might have blushed, but now her apparently irrational fear of too much life insurance had been vindicated..Even a cool day on the pie route could produce a good sweat by journey's end, because with the addition of the men to this ambitious project, they now not only made deliveries but also performed some chores that were a problem for the elderly or disabled..As they rolled along the coast, Agnes began to read to Barty from Podkayne of Mars: " 'All my life I've wanted to go to Earth. Not to live, of course-just to see it. As everybody knows, Terra is a wonderful place to visit but not to live. Not truly suited to human habitation.'". "Loved her? Of course I loved her. Naomi was beautiful and so kind ... and funny. She was the best ... the best thing that ever happened to me.".Another stiff might have required dragging; but Neddy weighed hardly more than a five-foot-ten breadstick. Junior hauled the body off the ground and slung it over one shoulder in a fireman's carry.. "Some Baptists are opposed to drink, Doctor, but we're the wicked variety. Though all we have is a warm bottle of Chardonnay.".In his car, currently a Mercedes, he made three trips between his apartment and the garage in which he'd stored the Ford van under the Pinchbeck name. He took precautions against being followed..He gently drew the covers over his wife's ruined body, to her thin shoulders, but arranged her right arm on top of the blankets. He straightened and smoothed the folded-back flap of the top sheet..It was the best he could do in protest against the misuse of good work and a good ship. He was pleased with himself. When the ship was launched (and all seemed well with her, for her fault would not show up until she was out on the open sea) he could not keep from his teachers what he had done, the little circle of old men and midwives, the young hunchback who could speak with the dead, the blind girl who knew the names of things. He told them his trick, and the blind girl laughed, but the old people said, "Look out. Take care. Keep hidden.". "Everybody needs cheese," Angel said, which apparently meant that Mrs. Orwall would never lack work. "Mommy, you're wrong..He already had the pistol he had taken from Frieda Bliss's collection, but it didn't come with a sound-suppressor. He was preparing for all contingencies. Focus..The guy appeared vulnerable, his arms occupied with the kid and the bag, and Junior considered bursting out of the Mercedes, striding straight to the Celestina-humping son of a bitch, and shooting him point-blank in the face. Brain-shot, he would drop quicker than if the headless horseman had gotten him with an ax, and the kid would go down with him, and Junior would shoot the bastard boy next, shoot him in the head three times, four times just to be sure..In southern California, Agnes Lampion dreams of her newborn son. In Oregon, Junior Cain fearfully speaks a name in his sleep, and Detective Vanadium, waiting to tell the suspect about his dead wife's diary, leans forward in his chair to listen, while ceaselessly- turning a quarter across the thick knuckles of his right hand..Sometimes, while shaving or combing his hair, as he was looking in the bathroom or foyer mirror, Junior thought that he glimpsed a presence, dark and vaporous, less substantial than smoke, standing or moving behind him. At other times, this entity seemed to be within the mirror. He couldn't focus on it, study it, because the moment he became aware of the presence, it was gone.. "It was in your heart, too, and anything that's in your heart is there for anyone to see. Will your father marry us?".As if he sensed her reluctance to return to Dr. Chan, Barty had kept her occupied with talk of the red planet as they approached the office building, had talked her off the street, along the driveway, and into a parking space, where finally she relinquished the fantasy of an endless road trip. At 5:45, long past the end of office hours, Dr. Chan's suite was quiet..Could any spell of magic make..In spite of the urgency of his desire, he followed a circuitous route to Victorial's, doubling back on himself twice, watching for surveillance as he drove. If he were being followed, his tail was an invisible man in a ghost car..He lived high, on Russian Hill, in a limestone-clad building with carved Victorian detail. His one-bedroom unit included a roomy kitchen with breakfast nook and a spacious living room with windows looking down on twisty Lombard Street..Raised by a father to whom any form of amusement was blasphemy, Agnes had never seen a magician perform until she was nineteen, when Joey Lampion, then her suitor, had taken her to a stage show. Rabbits plucked out of top hats, doves conjured from sudden plumes of smoke, assistants sawn in half and mended to walk again; every illusion that had been old even in Houdini's time was a jaw-dropping amazement to her that evening. Now she remembered a trick in which the magician had poured a pitcher of milk into a funnel fashioned from a few pages of a newspaper, causing the milk to vanish when the funnel, still dry, was unrolled to reveal ordinary newsprint. The thrill that had quivered through her that evening measured 1 on the Richter scale compared to the full 10-point sense of wonder quaking through her at the sight of Barty as dry as if he'd spent the afternoon perched fireside..He summoned enough courage to approach the nightstand. His hand trembled. He half expected the quarter to be illusory; to disappear between his pinching fingers, but it was real..An SFPD patrol car swept past, its siren silent, the rack of emergency beacons flashing on its roof..At the farthest end of the loft from the stereo speakers, voices nevertheless had to be raised in even the most intimate exchanges. The artist who had created In the Baby 's Brain Lies the Parasite of Doom, Version 6, however, possessed a voice as deep, sharp-edged, and penetrating as his talent..Harmless though they were, the sight of them, swaddled and for the most part concealed, first troubled him and then quickly brought him --inexplicably, irrationally, undeniably--to the trembling edge of outright fear..Maria, however, lived comfortably with both the Catholicism and the occultism in which she had been raised. In Hermosillo, Mexico, the latter had been nearly as important to the spiritual life of her family as had been the former.. "Possible complications include cerebral hemorrhage, pulmonary edema, kidney failure, necrosis of the liver, coma-to name a few..".Junior's attorney-Simon Magusson--insisted upon full disclosure of maintenance records and advisories relating to the fire tower and to other forest-service structures for which the state and the county had sole or joint custodial responsibility. If a wrongful--death suit was filed, this information would have to be divulged anyway during normal disclosure procedures prior to trial, and since maintenance logs and advisories were of public record, Hisscus and Knacker and Nork agreed to provide what was requested..To the foot of the bed slouched the third and final Hackachak: twenty-four-year-old Kaitlin, Naomi's big sister. Kaitlin was the unfortunate sister, having inherited her looks from her father and her personality equally from both parents. A peculiar coppery cast enlivened her brown eyes, and in a certain slant of light, her angry glare could flash as red as blood..Already

the fortune foretold, which she had strived to dismiss as a game with no consequences, was coming true. Three times, Mary vanished, and three times she reappeared, before she led the bamboozled Koko to her mother and father. "Neat, huh?". Angel pointed to a Mercedes parked about forty feet behind the Buick, just as its headlights went off. The blocking dresser, which doubled as a vanity, was surmounted by a mirror. One bullet drilled through the plywood backing, made a spider-web puzzle of the silvered glass, lodged in the wall above the bed-thwack-and kicked out a spray of plaster chips. His body ached, too, especially his back, from the battering that he had taken. He remembered hitting the floor with his chin, and he supposed that he might have gotten knocked about the face more than he realized or remembered. If so, there would be bruises soon, but bruises would fade with time; in the interim, they might make him even more attractive to women, who would want to console him and kiss away the pain-especially when they discovered that he had sustained his injuries in a brutal fight, while rescuing a neighbor from a would-be rapist. His instructor, Bob Chicane-who visited twice a week for an hour-advised him to imagine a perfect fruit as the object of his meditation. An apple, a grape, an orange, whatever. Recalling how the title of the exhibition had resonated with him when first he'd seen the gallery, brochure, Junior felt certain now that a tape-recorded early draft of this sermon was the kinky "music" that accompanied his evening of passion with Seraphim. He couldn't remember one word of it, let alone any element that would have deeply moved a national radio audience, but this didn't mean that he was shallow or incapable of being touched by philosophical speculations. He'd been so distracted by the erotic perfection of Seraphim's young body and so busy jumping her that he wouldn't have remembered a word, either, if Zedd himself had been sitting on the bed, discussing the human condition with his customary brilliance. After prying Junior out of the meditative position, Chicane pushed him onto his back and vigorously--indeed, violently--massaged his thighs and calves. "Really bad muscle spasms," he explained. From a distance and through a scattering of trees, Junior wasn't able to discern much about the other funeral, but he was pretty sure many if not most of that crowd were Negroes. He surmised, therefore, that the person being buried was a Negro, too. For a while he thought the fear would end only when he perished from it, but eventually it faded, and in its place poured forth self-pity from a bottomless well. Self-pity, of course, is the ideal fuel for anger; which was why, pursuing the Buick through fog, climbing now toward Pacific Heights, Junior was in a murderous rage. By the time he reached Cain's bedroom, Tom Vanadium recognized that the austere decor of the apartment had probably been inspired by the minimalism that the wife killer had noted in the detective's own house in Spruce Hills. This was an uncanny discovery, troubling for reasons that Vanadium couldn't entirely define, but he remained convinced that his perception was correct. What good was she to anybody, what good could she ever hope to be, if she couldn't even save her little sister?. In the top drawer, in addition to the expected items, Tom Vanadium found a gallery brochure for an art exhibition. In the hooded flashlight beam, the name Celestina White seemed to flare off the glossy paper as though printed in reflective ink. Several large Dumpsters hulked nearby, dark rectangles less seen than suggested in the slowly churning murk, like forms in a dream, as ominous as graveyard sarcophaguses, each as suitable for a musician's carcass as any of the others. Admittedly, she had allowed herself to be disturbed by the fall of the cards, too. According them any credibility at all opened the door to full belief. This morning, only his love for his sister, Agnes, gave him the courage to drive and to become the pie man. Reminding himself that fortune favored the persistent and that he must always look for the bright side, Junior began with the city itself and with those whose surnames were Bartholomew. This was a manageable number. Embarrassment flushed her when she realized that the paramedic had cut away the pants of her jogging suit. She was naked from the waist down. For the first time since walking to La Jolla to meet Jonas Salk, Paul planned a journey with a specific purpose. As "It is." From a desk drawer, Nolly withdrew an envelope and put it on top of the offered cash. "I'm returning five hundred of your thousand retainer." He pushed everything back toward Junior. "I can try, your highness." Mary had a yellow vinyl ball of the type Koko would happily chase all day and, if allowed, chew all night, keeping the house awake with its squeaking. "Want this?" she asked Koko. Koko wanted it, of course, needed it, absolutely had to have it, and leaped into action as Mary pretended to throw the ball. "I'm not going anywhere," she pledged. She had realized that his voice was growing heavy with sleep. "But it's time for you to go to dreamland." "Well, it still is to me. But what I've been wondering ... when you talk about all the ways things are ... is there someplace where you don't have this problem with your eyes?"
