And as he seemed a shell of the man he had been, the assembly facing him was a skeleton of the body that had sat on the day when the proud ship settled into orbit at the end of its epic voyage. Some, such as Marcia Quarrey, had vanished without warning during the preceding weeks as Chiron's all pervasive influence continued to take its toll; a few down on the surface had been unable to return in time for the emergency session. Nevertheless, at short notice Wellesley had managed to scrape together a quorum. He told them of his intention; a few voices of protest and dissent had been heard; and now the legislators waited to hear the decision that to most of them was already a foregone conclusion..Micky said, "It's hard to make up anything as weird as what is.".Meanwhile, the SD sergeant at the main foyer was being conscientious. "I don't care what the computers say, Hanlon. This doesn't sound right to me. I have to check it out." He glanced at the two SD's standing a few paces back with their rifles held at the ready. "Keep an eye on ~ while I call the OOD." Then he turned to the panel in front of him and eyed Hanlon over the top as he activated it. "Hold it right where you are, buddy." Hanlon tensed but there was nothing he could do. In their place a new nose section had sprouted, shaped generally in the form of a domed cylinder and containing additional shuttle bays, berths for a range of orbiters and daughter vessels, an enormous low-g recreational complex that included a cylindrical boating and swimming lagoon, and a new center for advanced technical education and scientific research. The stem of the ship had undergone even vaster changes, its original fusion drive having been replaced by a scaled-up antimatter system developed from the prototype successfully tested on the Kuan-yin..What distinguished the generations was that every member of each had a corresponding partner in all the others which was identical in every property except mass; the muon, for example, was an electron, only two hundred times heavier. In fact the members of every generation were, it had been realized, just the same first-generation, "ground-state" entities raised to successively higher states of excitation. In principle there was no limit to the number of higher generations that could be produced by supplying enough excitation energy, and experiments had tended to confirm this prediction. Nevertheless, all

the exotic variations created could be accounted for by the same eight ground-state quarks and leptons, plus their respective antiparticles, together with the field quanta through which they interacted. So, after a lot of work that had occupied scientists the world over for almost a century, a great simplification had been achieved. But were quarks and leptons the end of the story?.plain grub..If wishes were fishes, no hooks would be needed, no line and no rod, no reel and no patience.
