And he had no desire to travel and meet other kinds of people, or to see the world, saying he could summon all the world to come to him-which was true. Maybe that's where the danger of that art lies..wizards were as crude and false as Losen's title and rule. When he was one with the true element..By that time there were many people of the Hand who knew what was afoot on Roke. Young people came there sent by them. Men and women came to be taught and to teach. Many of these had a hard time getting there, for the spells that hid the island were stronger than ever, making it seem only a cloud, or a reef among the breakers; and the Roke wind blew, which kept any ship from Thwil Bay unless there was a sorcerer aboard who knew how to turn that wind. Still they came, and as the years went on a larger house was needed for the school than any in Thwil Town..Azver went quickly to where Irian lay beside the stream, and the others followed him. She roused up and got to her feet, looking dull and dazed. They were standing around her, a kind of guard, when the group of thirty or more men came past the little house and approached them. They were mostly older students; there were five or six wizard's staffs among the crowd, and the Master Windkey led them. His thin, keen old face looked strained and weary, but he greeted the four mages courteously by their titles..As they coasted that island, he himself put an illusion about Hopeful, so that she would seem not a boat but a drifting log; for pirates and Losen's slave takers were thick in these waters..of the Earth."We have to finish the work here," he told her, and she looked at him mildly. All animals were patient, but the patience of the horse kind was wonderful, being freely given. Dogs were loyal, but there was more of obedience in it. The comfort of their breath on his head. A long time ago. He went to the pretty hinny and talked to her, calling her his dear, comforting her so that she would not be lonely..Then Dragonfly came back to herself and called to Ivory and ran down the hill to meet him. "I will."So when the Windkey returned, we were nine again. But divided. For the Summoner said we must meet again and choose an Archmage. The king had had no place among us, he said. And "a woman on Gont", whoever she may be, has no place among the men on Roke. Eh? The Windkey, the Chanter, the Changer, the Hand, say he is right. Cars or not -- I thought -- in any case this appears to be some kind of. Maybe it was to escape the hunt that Medra came to Pendor, a long way west of the Inmost Sea, or maybe some rumor among the women of the Hand on Hosk sent him there. Pendor was a rich island, then, before the dragon Yevaud despoiled it. Wherever Medra had gone until then, he had found the lands like Havnor or worse, sunk in warfare, raids, and piracy, the fields full of weeds, the towns full of thieves. Maybe he thought, at first, that on Pendor he had found Morred's Isle, for the city was beautiful and peaceful and the people prosperous. Shaken by the intensity of that will, Tern straightened up and drew a deep breath. He looked round at the girl, Dory. She did not return his gaze, watching her mother with stolid, sullen grief. Only after the woman sank into sleep did Dory move, going to help Rush, who as a friend and neighbor had made herself useful and was gathering up blood-soaked cloths scattered by the bed. "Yes. To send away one woman, it takes nine mages." He very seldom smiled, and when he did it was quick and fierce. "We are to meet to uphold the Rule of Roke. And so to choose an Archmage." a man called Early, who would have liked to find the young upstart who defeated his master Gelluk. "No," Otter said, and hesitated. He felt he owed this man an explanation. "See, it's not so much. Ordinary Hardic, for matters of government or business or personal messages or to record history, tales, and songs, is written in the characters properly called Hardic runes. Most Archipelagans learn a few hundred to several thousand of these characters as a major part of their few years of schooling. Spoken or written, Hardic is useless for casting spells. "I don't either. Morred and Elfarran sang to each other, and he was a mage. I think there's a Master Chanter on Roke, that teaches the lays and the histories. But I never heard of a wizard being a musician." league of mages. Proud and secure in their powers, they had sought to teach others to band. "The Master said that such gifts or capacities, untrained, are not only wasted, but may be dangerous. The art must be learned, and practiced, he said." said. "It's at daybreak a name should be given. And then there ought to be music and feasting and his prey was in. He walked to it and flung the door open. "He knows that, sister," Mead told her. "Didn't he tell us he was a ship carpenter? But it's a." "Magic won't die on Roke," said Veil. "On Roke all spells are strong. So said Ath himself. And you have walked under the trees... Our job must be to keep that strength. Hide it, yes. Hoard it, as a young dragon hoards up its fire. And share it. But only here. Pass it on, one to the next, here, where it's safe, and where the great robbers and killers would least look for it, since no one here is of any account. And one day the dragon will come into its strength. If it takes a thousand years..." Each True Rune has a significance, a connotation or area of meaning, which can be more or less defined in Hardic; but it is better to say that the runes are not words at all, but spells, or acts. Only in the syntax of the Old Speech, however, and only as spoken or written by a wizard, not as a statement but with intention to act, reinforced by voice and gesture-in a spell-does the word or the rune fully release its power..the dead of winter, and must go back alone?"
